

Digital Ready

Building teacher confidence for Digital Technology

FROM DIGITAL USERS TO DIGITAL MAKERS

Digital Technology is set to have a much clearer curriculum home within the proposed Northern Ireland Curriculum 2028, with progressive learning and a common entitlement for pupils from Foundation Stage onwards.

Our Digital Ready Teacher Professional Learning workshop helps primary staff understand the direction of the proposed curriculum and explore practical, accessible approaches to Digital Technology — no specialist computing background required.

COMPUTE. CREATE. COMMUNICATE.

Explore practical learning across the three proposed Digital Technology strands:

01 COMPUTING & DIGITAL SYSTEMS

Understanding how technology and digital systems work.

DEMYSTIFY DIGITAL TECHNOLOGY

Build teacher confidence around digital systems, data, programming, networks and Artificial Intelligence — all identified as knowledge areas within the proposed framework.

02 DIGITAL CREATION & COMMUNICATION

Moving beyond consuming technology to creating with it.

BUILD & SEQUENCE LEARNING

Explore how Digital Technology knowledge can be progressively built and sequenced from Foundation Stage through KS1 and KS2.

03 DIGITAL ETHICS & RESPONSIBILITY

Developing informed, responsible digital citizens.

MAKE IT PRACTICAL

Experience engaging, age-appropriate approaches that help pupils understand how technology works, not simply how to use it.

YOUR STAFF WILL

- **UNDERSTAND**
the direction of the proposed Digital Technology curriculum
- **DEMYSTIFY**
computing, programming, data, digital systems and AI
- **BUILD**
confidence to bring Digital Technology into the classroom
- **EXPLORE**
its three proposed curriculum strands
- **CONSIDER**
progression and sequencing across the primary years

IDEAL FOR

Whole Primary School Staff

Foundation Stage

KS1

KS2

Digital/ICT Coordinators

Curriculum Leaders

School Development Days

**Don't just prepare pupils to use technology.
Prepare them to understand it.**

Bring Digital Ready TPL to your school.
